

Social Credit Bills Are Fully Explained

Bill No. 41 Establishes Control of All Movement and Marketing of All Products

Bill 9 Restricts All Court Action

The following is a verbatim copy of a reported interview appearing in the *High River Times* under date of August 24th, 1937, and which purports to explain Social Credit and certain legislation in the House in recent sessions.

"The views expressed are not necessarily those of the Recorder, and we hereby publish them for the information and instruction of our readers."

"Social Credit has been termed through the press, over the air and from the platform, as some mythical scheme which some fast experts can grasp. It is no such thing. This sort of propaganda is simply put out as a blind so that the people will not delve too deeply into its workings."

"Social Credit is a tangible scheme, even to those who are least fortunate in the way of education, as I shall endeavor to explain."

"To state it briefly Social Credit is a scheme which provides for the setting up of so-called Credit Houses, whose purpose it shall be to receive (by compulsion) all cheques or cash received in the form of cheques or cash."

"These checks to be cashed through the orthodox banking system and the cash placed in a fund in the State Credit House."

"Thus will be created the much talked of, revolving fund, from which debts incurred outside the province will be paid, both governmental and individual."

"For any insurance, money money or script which will not be called money and the check book on the State Credit House will be used."

"The main thing to realize is that, in order to form and maintain the State Credit House, revolving fund, everything in the way of legitimate cash, credit and commodities will first have to be confiscated, and that to other countries."

"The fact that the banking system has been decreed, the municipalities or provincial monies have always been taken as a discount, so that the scheme of Social Credit does not provide for the circulation of dual monies within the confines of the province."

"Now, that it is not very hard to understand, and that all there is to it, every employee must take his wages to the State Credit House in his or her locality and hand it over, and for that he or she will receive a book entry. Every farmer or producer will deliver his or her commodity to a State Credit House or some agency which will act for it; and for such commodity he will receive credit in the way of a book entry. Surely this is not hard to understand; but the exponents of this theory do not want it understood, for the simple reason that it is generally understood, their supporters (excepting the job holding and job seeking ones) will quickly be established; but for the moment let us concentrate on recent legislation; and in passing I would advise those interested to write to Edmonton and obtain copies of the Bills cited below, viz: Bill No. 37 of 1937, Bill No. 38 of 1937, Bill No. 41 of 1937, Bill No. 9 of 1937 (second session). These can be had for the asking by addressing A. Shaskin, Kin's Printer, Edmonton."

"Bill No. 35, provides for the licensing of all business, industries and occupations; for the making of rules and regulations prohibiting or restricting any system or method of conducting such business or occupation; and in case the Act is contravened, it provides for a fine or imprisonment and the cancellation of the license."

"Bill No. 36 sets out quite clearly that it covers every kind and description of goods and that it is provided within the province. It also provides that the government may prescribe standards of ethics, methods of

practices and systems applicable to any trade carried on within the province. You wage-earners must not get away with the idea that this legislation refers only to your boss. It sets out quite clearly that it applies not only to every trade, business an industry, but also to every occupation within the province; and in order that the government may keep close track of your activities, it provides for a return to be filed covering all transactions, which is promptly attached of \$50.00 or imprisonment."

"Bill No. 41 provides for the control of transportation, storage and marketing of any commodity within the province, and gives to the government the power to enforce any schemes for the purpose of controlling transportation, storage and marketing of any commodity within the province; and it sets out that by commodity is meant any product of agriculture, mining, quarry, oil or gas, wood, forest, lakes or rivers; and it describes vehicles as any motor vehicle, wagon, railway car, ship, boat or other thing in which any natural product can be marketed."

"In Bill No. 41 it is interesting to note the number of times the word 'scheme' is used; and I wonder if our readers will get the significance. In the printed pamphlet setting out the bill the word 'scheme' is mentioned no less than eleven times."

"This scheming legislation provides for the regulation of time and place at which, and to designate the agency through which any commodity shall be packed, stored or marketed, and to determine the manner of distribution and to prohibit the transportation, storage or marketing of any commodity. It authorizes any member of the board to search any vehicle and to seize and dispose of any commodity kept, transported, packed, stored or marketed in violation of any order of the board."

"Bill No. 9 of 1937, second session provides for any nature whatsoever, concerning the validity of any enactment of the Legislative Assembly made, passed or amended, continued, maintained, continued or deferred, unless or until permission has first been given by the government. It has been generally understood that recent legislation will do."

"It is civil and property rights' taken from only the bankers and their employees; but I ask you to read carefully the foregoing bill and decide for yourself whether you are laborer or producer; if it cannot answer you. The recent banking legislation just declared ultra vires specified only bankers or their employees; but who of us can say what future legislation will do."

"Bill No. 41 also provides for the repeal of the Alberta Natural Products Act of 1934; and for the repeal of Control and Marketing of Wheat Act of 1934; and for the repeal of the Alberta Natural Products Marketing Act Amendment of 1935. All of these acts were passed by the former U.F.A. government in the interests of the farmers whom they represented at that time."

"The Bills Nos. 35, 36 and 41 were shelved in the House of Commons, and have not been passed by the legislature; and this is significant, for they are the teeth by which all recent legislation referring to Social Credit could be enforced; and, without them, as stated by Dr. Cross, Social Credit cannot be put into effect."

"It is to the whole thing that up, Alberta is simply fooling the people. It is putting out a smoke screen to prevent an election in the near future. He has picked his battle, and has the Banks and a very popular one (at this time). He has revived the promise of \$50.00 dividends in the minds of the electorate and deluded it by knocking off the sales tax and by announcing a reduction in truck licensing; and by just agreeing in a party to submitting his legislation to the courts for a ruling, he thinks he has played the Government out of its position of defending the banking system, so that he has not only picked the battleground but has even named the weapons; but in this he has pre-

Sentenced in Local Court on Charge of Grain Theft

Nick Podmoroff, formerly of H. H. Edwards on Wed. Sept. 16th, at 2 P.M. on a charge of theft of grain, the property of the Canadian Pacific Railway Company, to the value of \$127.15, was sentenced to nine months in the Lashbridge Jail.

The charge arose as a result of the failure of the accused to account to the Company for its share of the grain under the terms of a lease entered into between the C. P. R. and the accused.

Podmoroff left Alberta last fall and was brought back from Kamack, Sask. to face the charge.

R. R. Mitchell of the Legal Department of the Railway Company appeared for the prosecution.

Hussar Ladies Aid Meet at Home Of Mrs. Dundas

Hussar, Sept. 13th—On Wednesday, the Hussar Ladies Aid met at the home of Mrs. J. Dundas in honor of another departing member, Mrs. E. J. Lewis.

Mrs. Lewis, who with her husband and family will be leaving soon for Okotoks. There was a regular meeting in which the minutes of the previous meetings were read, and Mrs. L. F. Snyder elected vice-president to fill the vacancy left when Mrs. H. W. Lewis moved to Brantford, Ont.

Mrs. J. Dundas was appointed in Mrs. Holland's place on the kitchen committee and Mrs. E. J. Lewis in Miss Anna Hols' place on the flower committee.

It was decided to try a unique way of raising money, and Mrs. T. L. Montgomery "Mrs. Holland" will be making the committee for sale. After the lunch, Mrs. M. M. Moffat, the president, presented Mrs. Holland with a certificate of appreciation.

and in her talk expressed her regret at losing such a good member. Mrs. Holland, in reply, thanked the committee in charge.

Mrs. T. Burdett, Mrs. J. Dundas and Mrs. J. C. Hoeght.

and in her talk expressed her regret at losing such a good member. Mrs. Holland, in reply, thanked the committee in charge.

Ball Team Wins Doubleheader Sunday

In a late season exhibition double header bill on the Arrowwood Diamond, the Bassano team, team came victorious with 8-4 and 5-4 scores over the Queensdown-Arrowwood Juniors on Sunday last.

A fair sized crowd of fans were on hand to witness the exhibition, which proved somewhat one-sided, due to the fact that Bassano's nine were older and more experienced players. However, the Juniors gave a fine account of themselves, and in the second game tied Bassano by a 5-5 score until the final inning, when a succession of hits made it possible for the locals to run six runs across the plate.

Bassano, playing short-stop for Bassano, made several brilliant plays. Marquardt and Burrows on first and second, clicked for a couple of double plays, not to mention other opportunities that arose, but went amiss. Conolly, on the mound both games, had a very easy day of it, allowing ten hits. K.O. Wilson played the ball in to deep centre to force the bases for Arrowwood in the second game, chasing a couple of runs ahead of him.

The Arrowwood boys will appear on the Bassano diamond on Sunday, Oct. 10th, with a reinforced team, to arrange a tie-off of last Sunday. Weather permitting, final fans of this district are assured of seeing a grand display of ball play to close the season.

The boys will be looking for joy!

World of Wheat

"The lowest wheat yields in the West of this year have been met. It is almost as much loss of fibre and depletion of soil fertility as a lack of rainfall."

It is under the care of the May Brothers. It was reported that she would be returning some time ago, but she has been met. No Bassano news-digest has been received as yet, though she has been reported as greatly benefited by her treatment there. The committee in charge of the funds have prepared a financial statement, which is as follows:

Receipts: Social Credit \$25.00, Women's Institute \$5.00, Ladies Aid \$25.00, Wines Coffee Shop (Calgary) \$5.00, Mr. Potter (K. & P. Grain) \$5.00, Mr. Fothering (Show) \$10.00, Program and Dance \$5.00, Personal donations \$12.45. TOTAL \$173.75.

Disbursements: Ticket and berth to Rochester \$62.65, Cash for expenses \$27.35, Money order to Rochester \$20.00, H. G. G. and stamps \$25.00, Field Mayo Hospital \$15.00, M. O. Comm. and stamps \$25.00, 3 phone calls from Mrs. Riddle re trip \$1.35, Phone-calls re postponed program \$25.00, Stamps on letters \$1.17, To Mr. A. Brown \$10.00, Cash on hand \$16.00.

Following factors have tended to raise prices: Growing fear of war in Europe—Russia threat—damage to crops in Eastern Russia—harvesting progress slowly—U.S. Department of Agriculture reduces corn, wheat, barley and flax estimates—Increasing in British malting barley requirements.

Following factors have tended to lower prices: Danubian wheat substantial good—Russia makes substantial quantities of superior quality wheat—Long milling, and use of substitutes in Europe curtail imports—General rains benefit Indian native food crops and help spring seedlings—Machinery sales been over last year—large Mediterranean wheat crop of old production.

Records tell us further that, except in the West, low yields crop of wheat with low rainfall, and from which with a good rainfall. Rainfall then will govern the yield, and the fertility of it is much less importance.

Give the Prairies again good rains, and the fields will produce good crops.

E.I.D. and Bassano Board of Trade Discuss Local Irrigation Project

Gem Notes

The sale of Mr. Stanley Seifridges will be held on Friday the 30th of Oct. The Ladies Community Club will serve lunches all day. Proceeds to go towards the building of a community hall in Gem.

Mr. and Mrs. Jack Dunlavy and Mr. and Mrs. Lyons and sons of Duchesne were guests of the Brown family on Sunday.

The dance on Saturday night, put on by the Melody 5, was a grand success, with a good crowd in attendance.

Most of the farmers of the colony have completed harvesting. A few have to finish corner grain.

Mr. and Mrs. T. Harwell drove to Calgary school on Friday night and brought Edna home for the week-end.

A few children are sick with summer flu, and parents are watching very closely for any signs of what might be of a serious nature. It is a good plan to try to prevent infection.

Mr. Edwards and Margaret were visitors of Mrs. Harwell on Thursday night.

Mr. John Douglas was a visitor to Brooks last week.

MISS RUTH HELEN BROWN STILL UNDER DOCTORS CARE

Hussar, Sept. 23rd—Miss Ruth Helen Brown, who is in Rochester, Minn., is under the care of the Mayo Brothers. It was reported that she would be returning some time ago, but she has been met. No Bassano news-digest has been received as yet, though she has been reported as greatly benefited by her treatment there. The committee in charge of the funds have prepared a financial statement, which is as follows:

Consider Proposition to Irrigate Lands Adjacent to Bassano

SEEK NEW MEMBERS

The regular meeting of the Bassano Board of Trade was held on Wednesday afternoon of this week in the Royal Cafe, 19 members being present with President Jas. Johnston in the chair.

Minutes of the last meeting were read, and after a short discussion, adopted.

The membership Committee reported that several newcomers to Bassano would be approached in the very near future regarding membership to the Board. It was suggested that any new member should have his card dated from the first of January, 1938, thus making the balance of the present year with the 1938 term, as an added inducement to join.

The Board was informed that the pipeline to the local cemetery had been located, it was suggested that some damage of any kind from early frosts.

Due to complaints from stock-shippers concerning the weighing scales at the local stock-yards, the matter was given considerable discussion. It has been suggested that a small gate, large enough to allow passage of some criticism. Both these matters were left in the hands of the Public Affairs Committee, and will be investigated in the near future.

A letter from Mr. E. L. Gray, Manager of the E.I.D., was read by Pres. Johnston. In the letter, Mr. Gray stated that the E.I.D. would be attempting to place lands adjacent to Bassano under irrigation, and that the local stock-yards were being used as a land survey. Lands belonging to the Bassano Farming Company, just to the south of town, are being given attention of time to time as the land was surveyed. Lands belonging to the Bassano Farming Company, just to the south of town, are being given attention of time to time as the land was surveyed.

Electric pumps may be installed to raise water to a sufficient height for use on the land. As the water is of great importance to Bassano, the Public Affairs Committee have agreed to have the local stock-yards being used as a land survey. Lands belonging to the Bassano Farming Company, just to the south of town, are being given attention of time to time as the land was surveyed.

The meeting adjourned at approximately 1:30 p.m.

LOCAL GIRLS SOFTBALL TEAM DEFEATED AT GLEICHEN

The local girls softball team met with defeat at the hands of the Gleichen Red Wings on Sunday afternoon last by a 13-8 score.

The girls were a very close contest, Gleichen holding the edge through the very capable pitching of K. Stuart, who has had considerable experience on the mound for other girls teams in the western district. This newcomers to the Gleichen line-up succeeded in making 9 runs, girls ending at a 1-11 that apparently was not meant to be hit, and in which they succeeded in winning.

The mound for Bassano were not quite so fortunate, only five strikeouts-out being credited to them on the score-sheet.

Pauline Cadot, 1st baseman for the Bassano team gave a fine exhibition at her post. She will be greatly missed by the local girls when she leaves the district in the near future.

Bassano-D. Pearson, V. Jackson, R. Fennell, P. Ferguson, M. Ferguson, D. Ferguson, J. Hinkle, C. Ferguson, Gleichen-M. Stewart, K. Stewart, I. Allcott, L. Service, M. Allcott, I. Hinkle, P. McLean, F. Jeffries, B. Ferguson.

John Foster.

Mr. and Mrs. Walter Brichon have been residing in this district the past 17 years, left Wednesday for Calgary. The sold their farm property to the McKinnon of Hinton.

Mr. and Mrs. A. Freeman and children were visitors at the Munro home Sunday.

Mr. and Mrs. L. Osterberg of Coonsee were callers at the home of Mr. and Mrs. L. Munro Sunday.

Leo Kolbrevick of Brooks spent the week-end at home.

Wm. Freeman left Sunday for Duck Lake.

Edna Gooling is in the hospital, she was operated on Tuesday morning.

Mary E. Love and Jennie Woyencko spent the week-end at their homes.

Jim Jefferson left Monday for Calgary.

Mr. Royal Burrows of Coonsee was caller at the Salmon house Tuesday.

DECISION

A man without decision brings to whatever can make anyone of him; and one thing after another ridicules as its right to him, by arresting him while he is trying to go on—as a truce.

No. 2 (Westbound) arrives 1:10 p.m. No. 3 (Eastbound) arrives 1:10 p.m. No. 4 (Westbound) arrives 1:10 p.m. No. 5 (Eastbound) arrives 1:10 p.m.

No. 6 (Eastbound) arrives 1:10 p.m.

BASSANO RECORDER

Published every Thursday at the Office of the Bassano Recorder, in the Currie and Milroy Building, Bassano.
Advertising rates furnished on application.
NORMAN G. CARY
Publisher.

CAN THIS BE OUR PREMIER?

"A sophisticated rhetorician, imbued with the exuberance of his own verbosity, and gifted with an egotistical imagination that can at all times command an interminable and inconsistent series of arguments to malign an opponent and to glorify himself." Disraeli, admittedly labouring under the greatest provocation, was "for one hour less noble than himself," when he so described an opponent just as noble as himself, namely Gladstone. Our only fear in applying the quotation to our teacher-preacher-politically minded Premier is that he might see fit to compare himself to the man Disraeli so unmercifully castigated. Fortunately the words were not originally applied, though they may be applicable to Mr. Aberhart, otherwise they would undoubtedly create a greater furor in Alberta than they did in England, but with far less cause, and greater truth.

BEATTY AND PEACE RIVER SETTLEMENT

The Peace River country is again before the Public. For years railway and road expansion has been the cry. Now it is settlement and greater population. It may all be justified and justifiable, and frankly we admit that we are not in a position to judge, not being acquainted with the district in question.

Considerable weight has been added to the cry for population and settlement by the recent pronouncements of the President of the Canadian Pacific Railway Company, which peculiar as it may seem, gives us cause to think, and perhaps doubt.

We seem to remember that by far the greatest agency tending towards intensive settlement of great prairie areas, which it is now claimed should never have been disturbed from their virgin state, was the C.P.R. The Company's motives at that time were far from altruistic. On the contrary they were greatly interested in selling land, furs from Great Britain, Russia, Central Europe and elsewhere and other considerations far removed from that of the ultimate well-being of the settlers.

It occurs to us that it might be just as well to make abundantly sure that the Company is not again motivated by similar motives in lending support to settlement of the land farther north. The fares to the northern hinterland must be considerable, if, indeed the Company has no land to sell that far north. It is just as well to remember that the Company in conjunction with the C.N.R. is now administering the railroads previously owned by the Government of Alberta.

WHAT SHOULD BE DONE

In last week's issue, The Recorder saw fit to summarize the activities of the present administration under two headings: "What Mr. Aberhart has done" and "What Mr. Aberhart has not done."

Anticipating the cry of "Well, what would you do?" which has already been raised in some quarters, and realizing that it is a reasonable question, we have ventured to suggest a program (some people might call it a platform) of what the man on the street is demanding, and must get, from each and every candidate seeking his support, in the event of an election being called in the near future.

We do not pretend that it covers the whole field (that would be impossible here), but it largely represents in our opinion views of those who are anti-Social Credit. And again we leave our readers to draw their own conclusions. Here they are:

1. UNITED ACTION in opposition to Social Credit and its works
2. BUSINESS ADMINISTRATION
3. ABOLITION OF PARTY and party policies in the province.
4. REDUCTION in Membership in Legislative Assembly to 24 members (12 from the north and 12 from the south, with the Premier elected by the members and the Cabinet selected by the Premier, plus one member at each city).
5. ABOLITION OF Patronage in the Civil Service and elsewhere.
6. REDUCTION in the Civil Service by discharge of all inefficient or unnecessary employees, superannuation, and adding new duties to those of present employees as occasion arises.
7. REDUCE taxation, if at all possible, and increase it to meet the obligations of the province, if necessary, on those best able to meet the demand.
8. RESTORE to the Courts of Alberta the functions which should be exercised by them, and deny to no person the right of access to the Courts.
9. RESTORE the sanctity of Contract thereby re-establishing confidence and credit in the Province.
10. ESTABLISH at once a fund to meet the demands of holders of Provincial Savings Certificates, whose money has been improperly withheld.
11. ADOPT in Public Finance, so far as may be consistent with good business, a policy of "Pay as You Go."
12. ADOPT a policy of attempting to pay off the Public Debt as it matures, or in the alternative, refund it at lower rates of interest without adding to the debt.
13. PRACTICE strict economy and avoid waste in every department of the Government.
14. ADOPT by Constitutional means, such measures as may be necessary to adjust the private debt, particularly that of agriculture in the Province, through co-operation with all interested parties, and by legislation which the Law Officers of the Province may be able to say is ultra vires of the Powers of the Province to enact.
15. RE-ESTABLISH the system of letting road contracts by tender, and abolish the system of doing road work by day labour and the seemingly expensive method of hiring machinery.
16. IN THE SELECTION of Cabinet Ministers, the whole of the Province should be canvassed for the best possible men, whether in or out of the Assembly, quite regardless of their party affiliations in Federal affairs.
17. REPEAL the present Recall Recall Act, and pass a proper Recall Statute, or abolish such a thing as recall of an elected member.
18. CO-OPERATE with the Federal Government wholeheartedly in a sincere effort to amend the B.N.A. Act with respect to readjustment in the fields of legislation and taxation, and bring our Constitution up to date.
19. CONDUCT negotiations with the Federal Government leading to the abolition of the duplication of services and expenses in many lines, e.g., Income Tax Collections.

"O WAD SOME POWER THE GIFTIE GIE US
TO SEE OURSELVES AS ITHERS SEE US."—Burns.

THE PEACE RIVER—PACIFIC OUTLET

(From FARM AND RANCH REVIEW)

It is highly satisfactory that Hon. Mr. Gardiner, Federal Minister of Agriculture, has recently expressed sympathy with the present impossible transportation problem of the Peace River District. Ever since the early colonization of this extensive agricultural area, it has been recognized that the south-eastern outlet could only be regarded as a temporary make-shift. Nevertheless, decades have now passed without relief to these land bound settlers.

In the meanwhile fabulous sums have been spent upon an outlet via the Hudson's Bay for the producers of the eastern part of the prairie provinces who already were completely served by rail and lake transportation at very low rates. The annual losses on the Hudson's Bay venture is to-day a serious drain on the taxpayers of Canada. Besides this new line has failed utterly to reduce the per-bushel cost of reaching overseas markets, which obviously was the only justification for Canada's prodigious expenditure on this "white elephant". There was not at any time the remotest suggestion that existing transportation facilities were inadequate. The Hudson's Bay route always frankly experimental, may, of course, in time redeem itself. So far, however, it stands branded at least as demonstrably premature. It was strictly a political enterprise promoted and built to win elections.

Canada Should Do Her Duty

We are just entering, let us hope, upon the closing period of the greatest depression in history. Millions of people have for years been unemployed and maintained in idleness at a cost of hundreds of millions of dollars. This situation would seem to have afforded an opportunity to construct economically the western outlet for the Peace River. It would have been a self-liquidating undertaking and an urgently needed colonization road. The Royal Commission on Railways pointed out years ago, that 17,000 miles of unnecessary and duplicating lines were being operated by our two railways at a tremendous annual loss. Rails and other material could easily have been diverted from some of these unprofitable lines to complete the Peace River western outlet.

It is difficult to find any sensible justification for the callous attitude our Federal governments have for many years shown towards the welfare of the large body of settlers now developing the Peace River District, who are compelled to ship their products over thousands of miles of railway, and at a ruinous cost, in order to reach tide water, when a few hundred miles of new construction would give them access to the Pacific. We still have the unemployed with us, we are still operating unprofitable lines, which should be consolidated or discontinued, and the settlers in the Peace River area are still being held white on transportation costs. A strong agitation for justice for these people is in order.

McKENNA AND SOCIAL CREDIT

(From the VEGREVILLE OBSERVER)

Statements attributed to the Rt. Hon. Reginald McKenna. British statesman and banker, have been used freely in the past as an argument in favor of Social Credit. Mr. McKenna now in Canada, characterizes Social Credit as a "phantasma, a figment of a mad, myth incomprehended even by its own promoters."

Mr. McKenna added: "The logical conclusion of Social Credit is an inflationary chaos, the inevitable result of uncontrolled inflation."

Social Credit speakers are insisting the Vegreville electoral division this week. It is a safe bet that none of them will use the above quotations from Mr. McKenna's statement.

HEPBURN AND ABERHART COMPARED

(From the VULCAN ADVOCATE)

There is some likeness between Hepburn and Aberhart. They both passed legislation that could have been disallowed. They both tried to sterilize the courts. They are both against Mackenzie King. Hepburn accuses him of vacillation but approves of his disavowal of Alberta legislation. This approval may be the result of political necessity cannot afford to carry his feud with Mr. King too far, not for a month anyway. Mr. Aberhart can. Even if there were an election on in Alberta it would be to his interest to attack Mr. King and his government, the U.F.A., the Conservatives or any other scapegoats.

Not everything done by the Hepburn government was wrong. We have in other issues commended some of his acts and recommended them to other legislatures, but his general conduct has not been admirable. Coming into power with a large majority he used it ruthlessly. He fired civil servants indiscriminately. Himself insubordinate as he showed in his attitude towards Mr. King, he would tolerate no insubordination among his followers. He ostracised or read out of the party any who showed symptoms of insurgency. He carried out the legislature the barn-burning features of his campaign speeches; playing it to the galleries and accepting their applause. He denounced capitalists and consorted with millionaires. He dismissed ministers who deserved dismissal but not until after he had encouraged them in the acts for which they merited dismissal.

MORE ABOUT

Social Credit Bills

(continued from page 1)

"scheme" is working; but if not, then he is arrested and fined or imprisoned and the track and the wheat is confiscated as provided for also in the bill which also authorizes any member of the board to seize and dispose of any commodity marketed in violation of the order of the board.

I trust that I have proven my contention of dictatorship, confiscation and violation of property rights of the people generally and I will wait patiently for a refutation of this explanation by any member of the present government. If they should disagree with my explanation of true Social Credit, I am sure we will read carefully any other description they wish to give.

Elected representatives are becoming less and less important in these days of advancement. "Order in Council" seems to be the power nowadays, so let Mr. Aberhart proclaim by Order in Council that the foregoing is not his intention and he will increase his strength enormously.

At a recent session members were required to sign pledges before they were allowed to attend caucus. These pledges relegated to two men, who were not even citizens of this country, the powers that were vested in the members by right of their election to represent their constituencies. This violates every principle of democracy and is absolutely contrary to the laws of the land in which we live. When we vote a member into office in our constituency, we give him the sole right to represent us in parliament, and this right he cannot pass on to another. If this were not so, then our local representative could decide to take a vacation after election and authorize someone else to act for him in the legislature.

Many enthusiasts has passed as Mr. Aberhart will find out. "The mistake was made in comparing the intellect of the average elector with that of a thirteen-year-old child. Some may be lacking in education (which sometimes is a blessing) but intelligence is not yet at a premium in this province.

Local and Personal Notes

Mrs. Art Bowman and children are visiting in Medicine Hat.

Mr. Bob Harper of Calgary, is visiting his parents for a few days.

Miss Irene Kinney, R.N., was a visitor to Calgary over the week-end.

Miss Rosa Tsemstrovich, of the local creamery staff, was visited by her sister of Brooks, over the week-end.

Mr. Allen Yule returned to town the first of the week, after working at Rosemary for the past few weeks.

Mrs. H. T. Johnson received a cablegram from her son, Perry, who is in London, England, on Tuesday, it being the occasion of her birthday.

Mr. and Mrs. Thompson and sons, who for the past few months have been in Joliet, B.C., returned to town last week. Mr. Thompson is an employee of the C.P.R.

Watch for posters of a lumber sale to be conducted by the Crown Lumber Company, with a yard in Bassano to be held in the near future. Posters will be circulated this week-end.

John Calder, of Medicine Hat, has been awarded a scholarship covering four year tuition at McGill University, by the Canadian Pacific Railway. John is a nephew of Mr. and Mrs. A. McKee of Bassano.

The Calgary Power Company have moved their office from their previous quarters in the building next to the Royal Cafe, to the office formerly occupied by Walter K. Webb on main street. The new location should be quite an improvement over the old office, in that more room for equipment is obtainable.

Last Sunday the Brooks Tennis Club visited the Bassano courts. The visitors not at full strength, owing to two of their best players playing baseball, were defeated by a 4-2 margin. If weather conditions improve, the Bassano Club will play a return match at Brooks on Sunday, next. All players wishing to go please notify A. Cathro before Friday night.

Duchess Notes

Mr. and Mrs. Walker and family, of Millmont, Mrs. Appleby and Ruth and Mr. Richter were Sunday guests at the Chawchign sons on Sunday.

Mr. Dave Miller, of Spokane, spent a few days here renewing friends and acquaintances. He was visiting at the home of his brother, Sylvester. Don't miss "That Girl from Paris," starring Lily Pons, Jack Oakie and Gene Raymond. Showing Friday and Saturday.

John Stafford and Harold Lyons were business visitors in Bassano on Monday afternoon.

The Duchess Ladies' Aid will meet at the home of Mrs. Dunlavy on Wednesday, Oct. 6th. Everyone cordially invited.

Mr. and Mrs. Walter Rugh and Mr. Gahan were Bassano visitors on Friday.

"Congratulations" to Mr. and Mrs. George Hansen on the birth of a son on Sept. 15.

Mr. and Mrs. C. H. Moe moved back town after spending the summer on the farm.

Mr. and Mrs. Swane have moved into the living quarters behind the Purcell Store, recently vacated by Mr. and Mrs. Connie Glaum.

BORN AT BASSANO HOSPITAL
COOPER—Morr. To Mr. and Mrs. Frank Cooper or Eyremore, a son on September 28th, 1937.
FERRAND—Morr. To Mr. and Mrs. Otto Ferrand of Eyremore, a son on September 28th, 1937.
